TOP 6 : Election of a new Student Council

TOP 7 : Establishment of an election list for the Faculty Council election

TOP 8 : Work assignments for the Student Council

TOP 9 : Miscellaneous

### GENERAL INFORMATION

The Student Council is the association of all students and doctoral candidates<sup>1</sup> in physics and astronomy. All students and doctoral students of the Faculty of Physics and Astronomy are thus members of the Student Council and enjoy the right to speak, propose and vote at the Plenary Assembly (PA), as well as the right to stand for election.

### CANDIDATURES

If interested, every member of the Student Council can run for office, specifically<sup>2</sup> in person at a meeting of the student representatives or at the PA or in text form, i.e. informally by email to [fs-rat@physik.rub.de](mailto:fs-rat@physik.rub.de). In addition to the name, it is useful to provide contact information (e-mail address, mobile phone number, etc.). This applies to both the student representatives and the Faculty Council.

### AGENDA

In principle, the agenda can only be supplemented by items that have been received by the student representatives at least four days before the PA. Requests for agenda items shall be published at least two days before the PA.

### DOCUMENTS

The Student Council of Physics and Astronomy will present its rules of procedure (GO) as well as the previous and next budget plan to the PA. The current version of the GO can be found on the website of the student council [1]. For the budget plans, please refer to the PA.

---

<sup>1</sup>The representation does not formally extend to the committees of the faculty; here, the academic staff are responsible in principle. Candidacies for the student representatives are possible, membership in the committees for the students is basically case-dependent.

<sup>2</sup>For alternative options, please refer to the Student Council Constitution, which can be found on the Student Council website [1].
